OUTLOOK:

Weather Discussion: In Alaska, a low pressure system over the west will spread moisture into the interior and southern portions of the state. In the Southwest, high pressure will bring dry weather to most of the area except for rain over Texas. The South will also see dry weather except for showers over Florida. Gusty southerly winds are on tap for portions of Minnesota and Wisconsin.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southern California Showers Central California, spreading to Southern California overnight.	45 to 65 mountains. 60 to 75 valleys. 68 to 75 upper deserts. 78 to 88 lower deserts.	30 to 50%.	Southwest to northwest 10 to 20 mph.
